

MR. STRAW HAT IS SENT TO THE REAR

Weather Wizard Thiessen Getting the Habit of Delivering the Goods.

Weather Wizard Thiessen again delivered the goods Sunday, when the "rain and cooler" prediction was carried out. The clouds which threatened Saturday night did not release their burdens of rain and Salt Lake suffered no other inconvenience than being compelled to don heavier clothing. Clouds have come and gone with the death of Mr. Straw Hat, and a preliminary feeling of snow is in the air.

Meteorological report and record at the local office, United States weather bureau, for twenty-four hours ending at 6 p. m. Sunday:

Temperature at 6 p. m., 65; maximum temperature, 72; minimum temperature, 55; mean temperature, 66, which is 6 degrees below normal.

Total deficiency since the first of the month, 22 degrees. Total excess since January 1, 15 degrees.

Precipitation at 6 p. m., none; total precipitation since first of the month, 1.14 inches, which is 29 inches above normal. Total excess since January 1, 2.71 inches. Relative humidity, 48 per cent.

A Sprained Ankle.

As usually treated a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may, in most cases, be effected in less than one week's time. This liniment is a most remarkable preparation; try it for a sprain or a bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by all druggists.

Y. W. C. A. Notes

Some people do not understand that men, as well as women and girls, are served at the cafeteria in the Brooks Arcade building. A great many are glad to avail themselves of the opportunity to get home-cooked food at a reasonable price.

The class in advanced French is being organized. Mrs. Jennings will teach the class again this year. Any one wishing to attend may do so by writing to the secretary, Miss Mabel Johnson, at the Brooks Arcade office.

For the past two years a "Travelers' Aid" society has been in the employ of the association, and during the last two months two aides were sent to the Brooks Arcade building. They have directed hundreds of girls and women to safe and sanitary lodgings and have aided and comforted many weary travelers.

Many and varied are the experiences of the travelers' aid and the experiences of the week are given. The little Finland girl who could neither speak nor understand a word of English, broke her fast in Salt Lake City, the first time since leaving New York city, because no one thought to see that she had food.

Through the travelers' aid the young girl, who was relieved of all her money by a pickpocket, received train fare and kindly help to her mother in a distant town.

The general office, cafeteria, post room, reading room and library are located on the third floor of the Brooks Arcade building. Elevator entrance on State street.

For the current expenses of the Young Women's Christian association \$12,000 is necessary annually. Of this amount \$900 is received from the boarding home, cafeteria and membership. The remaining \$11,100 must be made up through subscriptions. A campaign is being started to secure \$25 and \$10 pledges to cover the greater part of this amount.

The first social of this fall will be held Friday evening, September 24, at the Brooks Arcade building. Social and interesting talks on "Our National Parks" will be one of the features of the evening. All members and friends of the association are cordially invited.

INSURANCE MEN TAKING NOTICE

Our last Bulletin told how one of the policyholders of the Prudential Insurance Company living in Detroit, Mich., Mrs. D. R. Johnson, of 129 Jones street, was taken ill with Bright's Disease and death was expected when she was put on the Renal Compound. She made a complete recovery and saved the expense of a loss. This resulted in another policyholder of the Prudential Ins. Co. in the same city, who was nearly down and out when he began to feel the effects of the treatment. At last advice this case, too, was going right.

For a letter from a Sacramento man in which he says: "I am in the life insurance business and once in a while the doctor has to 'pass up' on a prospect. I know that your Compound is a wonder, why can't I put these people on it and let them for examination. Since I have put it on I present you with a bill for \$5,000.00 for the price I have given your Compound."

He is not the first person who has seen this opportunity. One of the State officials of Nevada came to see an and then a proposition to insure the lives of people having Bright's Disease and Diabetes, charging double the ordinary rates and putting them on it. It will be seen that the Compound is a great help to insurance, although some of them were actually in extremis. For instance, in our market will be found the case of Mrs. R. Lester Bell, of Auburn, N. Y., who was in the Auburn Hospital and was expected to die during the week when put on Fulton's Renal Compound. One year from that time she passed for life insurance.

The case of Miss F. Wacker, the first street merchant of San Francisco, also comes to mind in this connection. It did not take her long to get a few months, and was nearly down and out with diabetes when put on Fulton's Renal Compound. It was a great help to her, and she is now a healthy woman.

An interesting fact in Wacker's case was that a benevolent set up a new man, caution that caused the disease to happen and he was very much discouraged, due to the fact that he had not known of the Compound. However, he went on the Compound again and made the second recovery and now looks like an athlete. And this was all several years ago, showing that the results are real.

We are pleased to see the insurance men sitting up and taking notice. The large insurance companies will ultimately realize that they can save hundreds of thousands of dollars by having their agents advise policyholders who have these diseases of the genuineness of this treatment. Moreover, it is humane.

For Bright's Disease, Fulton's Renal Compound is the one used. For Diabetes, Fulton's Diabetes Compound. It can be had in your city at F. J. Hill Drug Co., 21 West Second street, Salt Lake City, or at the nearest branch office. Address: John J. Fulton, 312 First St., San Francisco, Cal. We desire to hear from you about every case not making the usual recovery.

Washington News of Interest to West

Special to The Tribune.

WASHINGTON, Sept. 19.—Postmaster-General Hitchcock, who left Washington the first of the week, has planned to attend a number of postmasters' conventions in the west and northwest. He will attend the Montana convention at Butte, September 24-25. Later on he will join President Taft at Los Angeles and go with him as far as El Paso, Tex.

The comptroller of the currency has approved the application to organize the First National bank of Cut Bank, Mont. This bank has a capitalization of \$25,000 and the following persons are financially interested in the enterprise: R. L. Taft, P. H. Bickery, William George Davis, S. L. Potter, C. Ed Luckens and John H. Town.

Just before leaving Washington, Postmaster-General Hitchcock announced the recess appointment of a number of presidential postmasters. Among the number was that of Ruby Robinson for Mullin, Ida.

The committee recently appointed by Postmaster-General Hitchcock to consider the feasibility of the adoption by the postoffice department of a typing device as a substitute for twine in tying packages of letters in the mails, has approved for testing in the service eleven devices, the inventors of which have been called upon to furnish twelve thousand of each device in time to begin the official test. Each of the devices passed upon as being adaptable will be thoroughly tested for one week in a number of postoffices and in the railway mail service.

The stamp being issued in commemoration of the Hudson-Fulton celebration will be ready for shipment Monday, September 20. There is no mistake about the attractiveness of this stamp; it is really one of the most beautiful and interesting ones ever issued by the postoffice department. The edition being limited to fifty millions, there is all probability a great demand made on the supply by stamp collectors. The first shipments will be made to distant offices, and the stamp will be on sale at all offices that have requested a supply on Saturday, September 25.

The comptroller of the currency has designated the Continental National bank of Salt Lake City, Utah, a reserve agent for the United States National bank, of Vale, Or.

Star mail service has been established from Lake Fork, by Joka, to Myton, Utah, and back, three times a week. Charles Perceval of Lakefork will carry the mail.

Special mail service from Roosevelt to Joka, Utah, has been discontinued.

Special mail service from Myton to Lake Fork, Utah, has been discontinued.

Emma L. Drossier has been appointed postmistress at Little Medicine, Albany county, Wyoming.

John Smith has been appointed postmistress at Bitter Creek, Sweetwater county, Wyoming.

During every day except Sundays and national holidays of the fifty-five of the president a tour, which began September 16, and will end November 13, 357 rural letter carriers on as many routes will traverse approximately 750,000 miles of roads in the states along the way, distributing metropolitan and local newspapers and correspondence from near and far, giving tidings of his movements and scenes and incidents which his fellow countrymen delight to know. This in itself demonstrates the practical usefulness of rural delivery as a means of transmitting information concerning passing national events. But a few years ago the rural population, upwards of 60 per cent of the whole country, might have waited days or perhaps a week or more for the latest announcement, and without any of the interesting details of such a journey.

A civil service examination will be held at Anaconda, Mont., October 2 for postoffice clerks and letter carriers.

The postoffice at Kismet, Dawson county, Montana, will be discontinued September 30. Mail to Leedy.

The postoffice at Nadie, Custer county, Montana, will be discontinued September 30. Mail to Calabar.

Allison H. Barclay has been appointed a rural carrier and Henry Barclay a substitute for rural route No. 1, out of Eureka, Mont.

Star mail service has been established from Ismay, via Teedee, to Ekahaka, Mont., and back, three times a week. The distance is fifty-three miles. Gordon Taylor of Ismay will carry the mail.

Children Cry FOR FLETCHER'S CASTORIA

Many people delude themselves by saying "It will wear away," when they notice symptoms of kidney or bladder trouble. This is a mistake. Take Foley's Kidney Remedy, and stop the drain on the vitality. It cures backache, rheumatism, kidney and bladder trouble, and makes every trace of pain, weakness, and urinary trouble disappear. F. J. Hill Drug Co., 30 W. 2nd St.
